Title

Method And Apparatus For Tracing Packets In A Communications Network

COMMISSIONER FOR PATENTS P.O. Box 1450 ALEXANDRIA, VA 22313-1450

SIR:

### RESPONSE TO OFFICE ACTION AND REQUEST FOR RECONSIDERATION

In connection with the above-referenced patent application, and in response to the Office Action dated November 7, 2005 in connection therewith, Applicants hereby traverse all outstanding rejections and respectfully request reconsideration of the instant application.

In the instant application, claims 1-30 are pending. In the instant Office Action, claims 1-30 stand rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 6,658,565 issued to A. Gupta *et al.* on December 2, 2003 (hereinafter "*Gupta*") in view of U.S. Patent No. 6,502,135 issued to E. Munger *et al.* on December 31, 2002 (hereinafter "*Munger*"). Applicants hereby respectfully traverse.

The present invention provides a novel method and apparatus for tracing a stream of anonymous (*i.e.*, unidentified or inaccurately identified) packets received at a given target in a communications network, in order to identify the source of a Denial of Service (DoS) attack. In
